

User Manual SAWF-07P (EN)

Air Quality Monitor

User Manual V1.1

Introduction

The SAWF-07P is a smart indoor air quality monitor that supports 2.4GHz Wi-Fi connectivity and is equipped with a high-definition LCD screen. It provides real-time monitoring and displays data on PM2.5, PM10, as well as temperature and humidity. By connecting to eWeLink, users can access features such as sound and light alarms, receive air quality improvement suggestions, and view historical records through the app. Additionally, the SAWF-07P is compatible with the Matter protocol, enabling control via mainstream smart home platforms.

Air Quality Tips

Historical Data Download

① Wi-Fi Button

- Press and hold for 5 seconds: The device enters pairing mode. (Pairing time 180 seconds)

② Settings Button

- Short-press ("temperature unit" flashes): Enter "Menu Mode".
 - Short-press the "⇌" button: Cycle through adjustable parameters (the current item being edited will flash).
 - Short-press the "+" / "-" button: Calibrate temperature and humidity values / Switch temperature unit / Switch detection mode (PM2.5/PM10)
- Long-press for 10s: Clear all locally modified parameters by the user and restore the device to its default state.

③ Buzzer/Indicator Light Switch

- Short-press: Toggle the buzzer on/off.
- Long-press for 3s: Toggle the LED indicator light on/off.

⚠ When the buzzer goes off:

- Short-press once: Temporarily mutes the buzzer for a **30-minute silence period**.
- Short-press twice: Completely turns off the buzzer.

④ Multicolor LED Indicator

- ● Green: Air quality is good.
- ● Yellow: Air quality is fair.
- ● Red: Air quality is poor.

⑤ LCD Display

⑥ Power Input Interface (Type-C)

⑦ Stand

⑧ Buzzer Off Icon

⑨ Buzzer On Icon

⑩ Wi-Fi Normal Icon

- Flashes slowly: Device is in pairing mode

- Keeps on: Pairing successful

⑮ Current Temperature

Specification

Model	SAWF-07P
MCU	ESP32-D0WDR2-V3
Input	5V  1A
Interface type	Type-C
Wireless connection	Wi-Fi IEEE 802.11 b/g/n 2.4GHz
Net weight	127.6g
Color	White
Product dimension	70x103X26mm
Casing materials	PC+ABS
Applicable place	Indoor
Working temperature	-10°C~50°C
Temperature error range	±0.5 °C; ±1°F
Working humidity	5-95%RH, non-condensing
Humidity error range	±3%
Certification	CE/FCC/RoHS
FCC ID	2APN5-SAWF08P

Matter Ecosystem User Guide

1. Add Device

Open a Matter-compatible App to scan the Matter QR code on the Quick Guide or the device itself to add the device.

Add to Apple via
Matter

Add to Google via
Matter

Add to Alexa via
Matter

Add to SmartThings
via Matter

eWeLink Ecosystem User Guide

1. Add Device

① Download the eWeLink App

Please download the "eWeLink" App from the **Google Play Store** or **Apple App Store**.

② Scan QR Code to Add Device

Enter "scan QR code" mode.

Scan the QR code on the device.

Select "Add Device".

Power on the device.

(Do not hold the Wi-Fi button while powering on the device. If this causes a malfunction, restart the device to recover.)

Long press the button for 5 seconds.

Check that the "Wi-Fi icon" flashes "two short and one long".

Search for the device and start connecting.

Select the "Wi-Fi" network and enter the password.

Device "Added completely"

Installation

This device supports opening the back stand and placing it on a desktop for use.

*Note:

1. Please ensure that the intake and exhaust ports are not blocked or covered to maintain accurate readings.

2. Do not place the device in a highly polluted environment for an extended period to avoid damaging the sensor.

Menu Mode Operation Guide

The menu mode allows for manual calibration of temperature/humidity, switching temperature unit (°C/°F), and toggling PM2.5/PM10 detection to improve accuracy.

1. Enter "Menu Mode"

Short-press the "Settings Button". When the "temperature unit" on the screen starts flashing, it indicates that the device has entered "Menu Mode".

2. Adjusting Local Display Data

- **Parameter Switching:**

Short-press the "⇌" button to cycle through the following adjustable parameters in sequence (the currently edited item will flash): Temperature Unit (°C/°F), Humidity Value, Detection Mode (PM2.5/PM10), Temperature Value.

- **Parameter Adjustment:**

Short press the "+" or "-" button to:

- Calibrate temperature and humidity.
- Switch the temperature unit (°C/°F).
- Change the detection mode (PM2.5/PM10).

3. Saving Local Modifications

After cycling through all editable items, continue to short-press the "⇐⇒" button to save all modifications and exit "Menu Mode".

4. Restoring Original Settings

Long-press the "Settings Button" for 10 seconds to clear all locally modified parameters (including temperature value, humidity value, temperature unit, buzzer status, and indicator light status) that were edited in the "Menu Mode", automatically restoring the device to its factory default state.

PM2.5/PM10 Concentration Threshold Definition

Good	0~ 35ug/m3	● Green LED Indicator
Fair	36 ~ 53ug/m3	● Yellow LED Indicator
Poor	>54 ug/m3	● Red LED Indicator

Default Comfort Level

Dry	Humidity≤40%RH
-----	----------------

Damp	Humidity $\geq$ 60%RH
Cold	Temperature $\leq$ 19°C/66.2°F
Hot	Temperature $\geq$ 27°C/80.6°F

Factory Reset

- After deleting the device in the eWeLink app.
- A device that has been successfully networked in eWeLink can be successfully networked again using a different eWeLink account.
- A device that has been successfully networked in Matter can be successfully re-networked via Matter Bluetooth.

FCC compliance statement

Responsible Party Name: SONOFF TECHNOLOGY LLC

Address: 14777 NE 40th St, Suite 201 Bellevue, WA 98007

Email Address: usres@itead.cc FCC ID: 2APN5-SAWF08P

1. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television

reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

EU Declaration of Conformity

Hereby, Shenzhen Sonoff Technologies Co., Ltd. declares that the radio equipment type SAWF-07P is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: <https://sonoff.tech/compliance/>

For CE frequency

EU Operating Frequency Range:

Wi-Fi: 802.11 b/g/n20 2412–2472 MHz, 802.11 n40: 2422–2462 MHz

BLE: 2402–2480 MHz

EU Output Power:

Wi-Fi 2.4G≤20dBm

BLE<10dBm

Under normal use of condition, this equipment should be kept a separation distance of at least 20 cm between the antenna and the body of the user.

WEEE Disposal and Recycling Information

WEEE Disposal and Recycling Information All products bearing this symbol are waste electrical and electronic equipment (WEEE as in directive 2012/19/EU) which should not be mixed with unsorted household waste. Instead, you should protect human health and the environment by handing over your waste equipment to a designated collection point for the recycling of waste electrical and electronic equipment, appointed by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences to the environment and human health. Please contact the installer or local authorities for more information about the location as well as terms and conditions of such collection points.
